The above-listed prior art, A-C, which are all in Japanese, are cited in the International Search Report issued by Japanese Patent Office to the above-identified International Application.

Though these prior art A-C cited in the Search Report are not in the English language, the Search Report (a copy thereof enclosed) is written in English and the degree of relevance is indicated therein by way of the markings of As along with the explanation of such markings. Accordingly, pursuant to MPEP Section 609, the requirement for a concise explanation of relevance pursuant to 37 CFR 1.98(a)(3) for each of these non-English language prior art is satisfied, and an English concise explanation thereof is omitted herein. Nonetheless, an English language abstract is attached to each one of these non-English prior art.

The above-listed prior art D-F are not in the English language, but the concise explanation of relevance of these prior art is incorporated in the specification pursuant to 37 CFR 1.98(a)(3). Nonetheless, an English language abstract of each of prior art D and E is attached to the copy thereof.

The prior art H-K are in Japanese, and the English translation of each one of these prior arts is not available at this time to the undersigned. However, an English language abstract is attached to each one of these non-English prior art. Accordingly, pursuant to MPEP Section 609, the requirement for a concise explanation of the relevance is satisfied, and an English concise
